Dear []

We received your memo on the three individuals with whom you had worked in the early 50's. I tried unsuccessfully to call you to thank you for the information and your effort in calling our attention to it. It is the kind of information which is difficult to retrieve and which tends to get overlooked with the passage of time.

Our record of the three individuals is better than I thought it would be, thanks in no small part to your good input in the early days. One of the individuals, Andy, apparently died of a heart attack about 10 years ago. There are indications that at least one, and possibly both of the other two, are still living, and there are some relatives whom we are attempting to contact and who may be able to clarify their situation. I concur with your views that we clearly have a moral responsibility to help these persons if we can find a way to do so.

In the event that you recall other similar cases, we would very much appreciate hearing about them. My number is extension 4308 if you care to call about anything.

On behalf of the Division I would like to thank you for the good work you did while you were with us and wish you continued success in your future endeavors.

Sincerely,

[]
